

STATE OF SHEFFIELD SURVEY

Is everything hunky dory in the world of special needs?

If you have a child or young person (aged 0-25) with a disability or additional needs, we need your views.

We are a network of over 800 families with disabled children in Sheffield, and we've compiled a comprehensive survey to find out what parent carers in the city really think.

The questions we're asking are based on hundreds of conversations we've had with other parents over the years. We want to know if you're getting enough support; whether you're managing to combine paid work and caring; and how you feel about your child's education, childcare, respite, health care and therapy services.

We think these questions really matter. Your answers will help us gather the data we need to speak with a strong voice on your behalf. We will use the results to lobby for better services and to protect existing ones. At this time of budget cuts, that's more important than ever.

Please take part!
